Installation Instructions

To ensure that your installation proceeds smoothly—please read these instructions carefully before you begin.
1 INSTALL WALL SUPPLY  CAUTION  Turn off hot and cold water supplies before beginning.

- Supply to WALL SUPPLY (1) is 1/2" NPT. See rough-in above for detailed information.
- Install RUBBER SEAL (2) onto WALL SUPPLY (1).
- Apply sealant or teflon tape to threads of 1/2" NPT supply nipple. Thread WALL SUPPLY (1) onto supply nipple making a water tight seal. WALL SUPPLY (1) with RUBBER SEAL (2) should be tight against finished wall.
**INSTALL WALL BRACKETS**

- The ADJUSTABLE SHOWER BAR (1) works best if secured to a wall stud or cross brace within the wall, using the SCREWS (2) supplied.
- If the ADJUSTABLE SHOWER BAR (1) is to be installed on a tile or plaster wall the ANCHORS (4) and SCREWS (2) should be used.
- Determine desired height and location (optional) of the top MOUNTING PLATE (3). Using the TEMPLATE (12) supplied mark the two spots for the ANCHORS (4). Use a level to make the center line between the two MOUNTING PLATES (3) vertical. If the MOUNTING PLATES (3) are secured to a stud or cross brace drill small pilot holes for SCREWS (2).
- **For installations on drywall or tiled walls:** Use ANCHORS (4) and SCREWS (2) for securing MOUNTING PLATE (3) to finished wall. Drill two 1/4" dia. holes a minimum of 1-3/4" deep. Insert the two ANCHORS (4) flush with face of the finished wall.
- Secure MOUNTING PLATES (3) to wall with SCREWS (2).

**INSTALL ADJUSTABLE SHOWER BAR**

- Install ADJUSTABLE SHOWER BAR (1) onto installed MOUNTING PLATES (3). Push ADJUSTABLE SHOWER BAR (1) flush against finished wall and tighten SET SCREWS (5) with HEX WRENCH (6) supplied with accessory.

**INSTALL HOSE AND HAND SHOWER**

- Install SEAL (6) into COUPLING NUT (7). Connect COUPLING NUT (7) to WALL SUPPLY NIPPLE (8) and tighten.
- INSTALL second SEAL (9) into SPRAY HOSE END (10) and connect HAND SHOWER (11) to SPRAY HOSE END (11). Hand tighten.
HELPFUL HINTS FOR CLEANING AND MAINTENANCE

The solid brass product you have just purchased has been designed to give you years of beauty and service. It is important to bring to your attention proper care and maintenance procedures, which will ensure its lasting beauty.

First and foremost, it is important (as it is with any fine piece of jewelry or furniture) that the product be wiped clean and dry with a soft damp cloth after every use.

Second, under no circumstances should an abrasive cleaner or combination cleaner/polish be used on JADO products. The abrasive nature of such products will eventually destroy the finish and void the warranty.

In the event of stubborn blemishes shown on the finish, we recommend use of Windex window cleaner with a soft cloth, but we do not recommend it be used on an everyday basis.

It is important to note that it is normal to expect signs of usage over time.

Thank you for selecting JADO for your home.
