

IQ™
BY MATTEO THUN

Water: elemental, essential, simple. The beauty in nature is its design elegance. Nothing is superfluous. Everything is vital. The same can be said of IQ™. Designed by Matteo Thun, IQ™ embodies the essence of nature: Inspired design pared down to only what's necessary. The result is unencumbered grace and function. The clean lines, shapes and angles flow just like water. Simple but with everything you need. And isn't simplification often defined as genius?
